# Chapter 2: Advanced Topics

Last modified: 2026-10-19 01:52:26 (PDT)

This is the second chapter. Continue building your website with more chapters.

## Mathematical Equations

You can include mathematical equations using LaTeX syntax:

Inline equation: $E = mc^2$

Display equation:

$$\int_{-\infty}^{\infty} e^{-x^2} dx = \sqrt{\pi} \tag{1}$$

Direct link to the equation anchor: See Equation 1.

## Tables

Table 1: Example table caption

| Column 1 | Column 2 | Column 3 |
|---|---|---|
| Data 1 | Data 2 | Data 3 |
| Data 4 | Data 5 | Data 6 |

## Figures

You can include images by placing them in the `images/` directory:

```
![Example image caption](images/your-image.png){#fig-example}
```

Then reference the figure in text using `@fig-example`.

## Callouts

**Note**

This is a note callout. Use it to highlight important information.

**Tip**

This is a tip callout. Share helpful suggestions with your readers.

**Warning**

This is a warning callout. Alert readers to potential issues.

**Important**

This is an important callout. Emphasize critical information.

## Theorem-like Divs

**Lemma 0.1.**

***Lem***

*This is a sample lemma-style div using the standard class name `lem`.*

**Example 0.1.**

**Exm**

This is a sample example-style div using the standard class name `exm`.
